

MATA 2020

Multivariate Approximation: Theory and Applications

Multivariate Approximation: Theory and Applications

Perugia, January 16-18, 2020

Department of Mathematics
and Computer Science
University of Perugia

in collaboration with

RITA Network

(Research Italian Network
on Approximation)

With the contribution of

Invited Speakers

Martin Buhmann (Justus-Liebig-Universität, Giessen)
Tomas Sauer (University of Passau)
Sergey Tikhonov (CRM, Barcelona)
Ding-Xuan Zhou (City University of Hong Kong)

Steering Committee

Costanza Conti (University of Firenze)
Stefano De Marchi (University of Padova)
Elisa Francomano (University of Palermo)
Gianluca Vinti (University of Perugia)

Organizing Committee

Laura Angeloni (University of Perugia)
Carlo Bardaro (University of Perugia)
Danilo Costarelli (University of Perugia)
Marco Seracini (University of Perugia)
Luca Zampogni (University of Perugia)
